Kenmore 110 Series Washing Machine Water Pump Replacement

Replace a faulty water pump on your Kenmore 110 Series Washing Machine.

Written By: Robert Trout

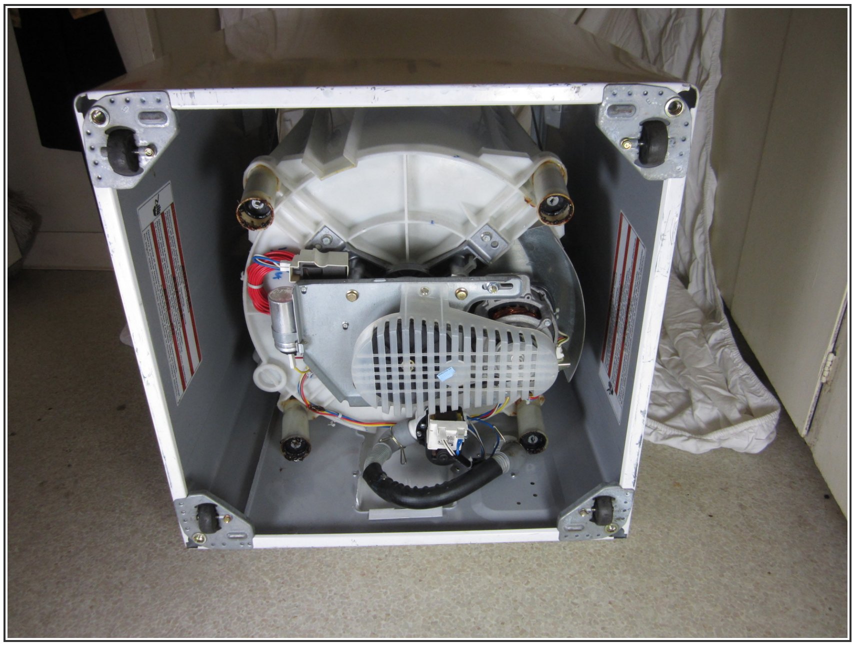

INTRODUCTION

Use this guide to replace a faulty water pump on your Kenmore 110 Series Washing Machine.

TOOLS:

- 1/4" Socket (1)
- Socket Wrench (1)

Step 1 — Water Pump

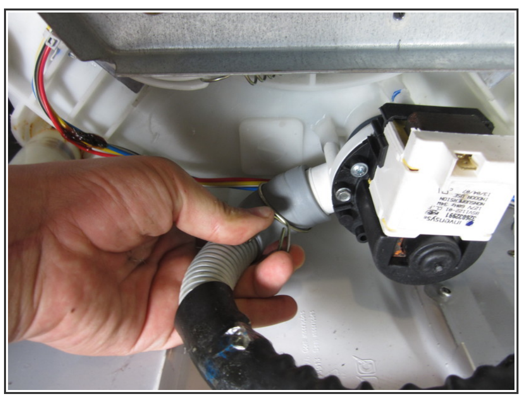

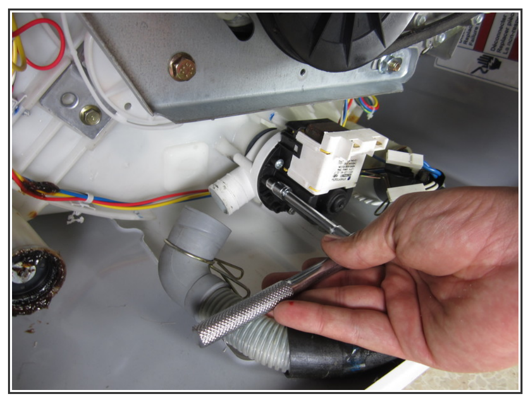

⚠ Unplug the washing machine!

- Carefully lay washing machine on its back.

Step 2

- Carefully remove both wire harnesses connected to the pump.
- Squeeze and pull back hose clamp.
- Twist drain hose off of pump.
- Using a 1/4" socket wrench, remove the three mounting screws.
- Pull the pump out of place.

ⓘ Pulling the pump away takes a little force.

To reassemble your device, follow these instructions in reverse order.
